

European Network For Children with Arthritis

Wendy Costello
Chairperson

ENCA's Objectives

Gathering information from the national associations and Doctors.

Circulating the information gathered to all the associations worldwide.

Filtering the knowledge gained to the parents and medical systems, thus upgrading the quality of care.

Initiating and helping research projects.

Overview of ENCA

We support JIA associations and associated rheumatological conditions across Europe

Founded in 2002

Current committee:

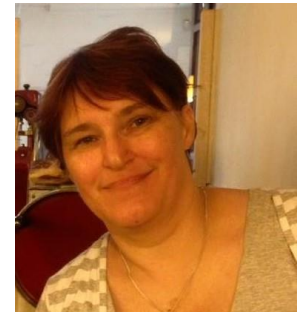

Wendy– Ireland

Mirjam –Slovenia

Anton– France

Yona– Israel

Anita –The Netherlands

Cooperation

- We work very closely with PRES Paediatric Rheumatology European Society and PRINTO Paediatric Rheumatology International Trials Organisation. Our yearly conference is held in conjunction with the PRES conference .

KIPO

- ▶ Kipo was shared with us last year by the Israel association and it has been translated into 3 languages
- ▶ We in Ireland printed it and are distributing it to all our families

Slovenian Video

- ▶ We helped support the Slovenian Association and add subtitles to their video

Rare auto-inflammatory council

- ▶ We are delighted to be involved in this project with Novartis.

What we have achieved

As parents of children with JIA, ENCA has greatly increased its knowledge within all areas of health and social care.

It has given us a diverse network allowing us access to a broad source of expertise, knowledge and resources.

Through pooled resources it has helped weaker organisations.
