SHARE The Final conference

October 26 & 27, 2015

Zeist, the Netherlands

Care for Pediatric Rheumatic Diseases in 2015 and beyond: Challenges and Opportunities.

You are cordially invited to join the final conference of SHARE on October 26-27 in Utrecht, the Netherlands, entitled:

Care for Pediatric Rheumatic Diseases in 2015 and beyond: Challenges and Opportunities.

SHARE is an European Union funded initiative that ends in December 2015.

Project Aims:

1. needs and challenges in the EU in the care for children with pediatric rheumatic diseases
2. To develop generally accepted best practices for diagnosis and treatment of these diseases.
3. To improve and link existing platforms and websites for sharing data and patient information
4. To establish best practices on ethical approval for international scientific studies in children
5. To improve the position of patients in every aspect of care and research in pediatric rheumatology

October 26, 2015:

Presentation of the outcomes on each of these topics.

October 27, 2015

New models for health care in Europe: discussing financial, ethical, practical and innovational issues and challenges for optimal care for orphan diseases in 2015 and beyond. For optimal discussions and opinion making, representatives from patient organisations, national and European political parties, health care regulatory authorities (like EMA, NICE and NZA), health care insurance companies and pharmaceutical companies are invited as speaker and attendants.

We look forward to meeting you in Utrecht on October 26-27th! Please contact us for further details: cluster@umcutrecht.nl
